INFORMATION OF THE BOARD OF MANAGEMENT OF THE TECHNOTRANS GROUP ON COVID-19

DEAR BUSINESS PARTNERS,

Even after the end of the summer holidays, the „coronavirus“ (SARS-CoV-2) continues to considerably restrict us in our daily activities regarding private and business matters.

The health and well-being of our employees, customers, suppliers and all business partners remains a top priority for technotrans.

We are therefore monitoring the development of the pandemic continuously with the same high level of attention and proactively adapting our measures and activities to any statutory regulations and the recommendations of the Robert Koch Institute (RKI) immediately.

In order to continue to effectively protect all employees and business partners against infection and thus minimize the impact on business operations, we are systematically pursuing the measures taken throughout the Group to protect against infection. These include hygienic precautions, contact and visit restrictions, the use of home office workplaces and travel restrictions.

Our success proves us right: there has not yet been a single case of infection throughout the technotrans Group.

Even in „corona times“, we are fully at your disposal with highly efficient technological solutions and our comprehensive services.

We take account of the impairments caused by the COVID-19 pandemic by means of the state-of-the-art communication facilities and our decentralized service organization.

We are looking forward to a continued good cooperation!

Stay healthy!

The Board of Management

Dirk Engel
